HEADTEACHER: BRIONY JONES

Dear parents/carers,

Key stage 2 Reading Challenge

English leaders Mrs Andrews and Mrs Pinson have launched a reading challenge. Ask your child about it and look on the website for more information. <https://www.westparkprimaryschool.co.uk/english>

Science Week – can you help us?

After the amazing success of the science fair last term, we are holding a Science Week which will start on Monday 11th March with a Ministry of Science extravaganza in the hall for all pupils.

We are asking parents and carers if they have anything to offer school during that week. Are you a scientist? Do you work in the health sector e.g. doctors or dentists' surgeries? Perhaps you could come and talk to some pupils!! Please fill in the slip and return to the office for science leader Mrs Dickens.

Uniform

Please make sure that children are wearing appropriate black school shoes. Also, earrings must be studs NOT hoops.

Early year playground work

Work started today on levelling the Early Years' playground; this is being done to remove wooden structures and posts that are rotting and to rectify drainage issues. Children in reception and nursery will still be able to play outdoors during the work and will access the main playground.

The work should take around three weeks. During this time, 2RD will be dismissed from the library door. Please could parents/carers try to keep this area clear during this time to facilitate the handover of children.

Later in the year, the mound and the trim trails are being removed for similar issues with the wood; new equipment will also be installed!

Esol for Health Course

Parent Ambassadors are running an ESOL for Health course every Monday morning in the eco room, useful for everyone and not just English for speakers of other languages! Please join us for the following sessions (next Monday is session 2):

- Session 2:** NHS 111
Walk-in centres
Practise completing medical forms
- Session 3:** Look at who GPs are and what they do
Complete GP registration forms
Look at GP sign in screens
- Session 4:** Prescriptions
Going to the chemist
Dentists
Eye tests
Health entitlements for children
- Session 5:** Common cancers in men
Common cancers in women
Health screening
- Session 6:** The Choose Well model
Understanding instructions on medicine labels
- Session 7:** TB
How to recognise the signs

Please see the Parent Ambassadors for further information.

For dates further ahead, please refer to class newsletters and the West Park Post (available on the school website).

Yours sincerely,

Briony Jones
