Respect-Aspiration-Resilience-Integrity

Tuesday 27th February 2024

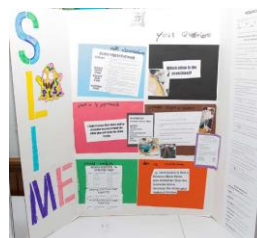

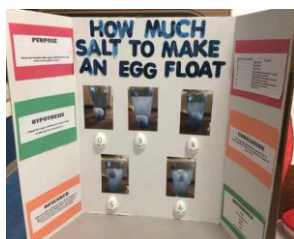

Dear Parents,

We are thrilled to announce that British Science Week will be taking place at West Park Primary School from Monday 11th March to Friday 15th March. As part of the celebrations, we invite you to join us for a Science Fair on the afternoon of Friday 15th March at 2:15pm. This will be a wonderful opportunity for you to see the home learning projects that your child and other children will have produced.

For this year's Science Fair, we would like for you and your child/ren to collaborate on a home learning project centred around the theme of time. However, feel free to explore and showcase any science topic that interests you. To guide your exploration, we ask children to think of a question that they will investigate through their project. The key focus for children during this project will be on developing their enquiry skills, such as observation, prediction and problem solving.

We are excited to launch the Home Learning Project as a competition. Prizes will be awarded for 1st, 2nd and 3rd place- we have some amazing prizes this year. To get started, look at the pictures and click on the QR code for some inspirational ideas.

Deadline for the project will be Monday 11th of March. All entries must be in by then. A further reminder will be sent out closer to the time about deadlines and the date and time of the Science Fair. We cannot wait to see the incredible projects you and your child/ren will come up with.

Best regards,
Miss Dhesi
